

# Club BAIST

---

Club BAIST is an exclusive private golf club, founded in 1996. The 18 hole golf course is an award winning and extremely challenging design that can be enjoyed by golfers at all levels. The golf club's board of directors has decided that a few areas of their business operation would benefit from some computerized automation. This includes tee times, memberships, and player scores.

## *Tee Times*

Due to the Alberta climate, golf at the club course can be played regularly from the beginning of April to the end of September. Depending on the current year's weather conditions, there is the possibility of starting earlier or finishing later in the year. As a result, booking reservations for tee times to play golf are at a premium.

All members in good standing are allowed to book reservations for golf tee times. Tee time reservations are currently taken over the phone or in person and are entered onto a daily tee sheet. The golf club accepts reservations for 1 to 4 golfers. The club schedules each grouping of up to 4 golfers at approximately 8 minute intervals in order to accommodate a manageable amount of golfers out on the course at one time. Tee times can be made up to a week in advance and as a result, there may be alterations required in order to accommodate changing member schedules. If any tee time cannot be met, it is the responsibility of the member to contact the golf club and cancel. Otherwise, the member will be reprimanded appropriately.

The members have indicated that it would be much more flexible if the golf club had a web site that would allow them to make reservations/cancellations for tee times. They would like to be able to see the names of all players that are scheduled to play.

Shareholder members can make one standing tee time request that is posted each week (foursome only). Members with this extra privilege fill out a standing tee time request card indicating the desired tee time. The golf club's rules committee assigns a priority to each in case of any conflicts.

A tee sheet for each golf day is created one week in advance. Special events, such as tournaments, may restrict the number of available tee times. As a result, a clerk fills in any special events and crosses off any affected tee times. The clerk then goes through the standing tee time request cards and schedules the appropriate tee times on the tee sheet. The clerk then schedules all phone requests on a first call first serve basis.

On the golf day, the tee sheet is transferred to the pro shop where it is used by the club's golf professional and the pro shop staff to manage and coordinate the golf course use. It is at this point where any modifications to the daily golf schedule are managed by the pro shop staff. The pro shop staff is responsible to accommodate any phone and in person golf day requests. All players must check in with the pro shop staff prior to playing.

After completing a round of golf, a member can turn in their scorecard. Scores are processed by a clerk and a resulting report is made available.

[illegible]

Club BAIST wants each member to electronically provide their own scoring, which must follow the guidelines of the World Handicapping System (WHS).

The following is required for each golf round played:

- Date
- Golf Course
- Course Rating
- Slope Rating
- Hole by Hole Score
- Total Score

If members play a different golf course, they can also incorporate that scoring as long as the golf course is approved by Golf Canada.

See the following resources:

“Golf Canada is the Authorized National body that is responsible for implementing and administering the Rules of Handicapping in Canada in co-operation with the provincial golf associations.”

“The purpose of the World Handicap System (WHS) is to make the game of golf more enjoyable for golfers by providing a consistent means of measuring one’s performance and progress and to enable golfers of differing abilities to compete, or play a casual round, with anyone else on a fair and equal basis.”
